*Allowable Subject Matter*

1. Claims 1-11 are allowed.

Claim 1 is independent claim.

The following is an examiner's statement of reasons for allowance:

**As to claim 1**, the present invention from the application discloses an image forming apparatus having a plurality of image forming means arranged along the carrying member in which "a volume of cleaning means of first image forming means of said plurality of image forming means to contain toner is larger than a volume of cleaning means of other image forming means to contain toner". The closest prior art such as Matsuzaki et al. (US Patent No. 5,966,567) discloses a cleaning frame member 13C larger in volume than the second cleaning frame member 13B is used instead of the second cleaning member 13B, the cleaning frame member 13A and the process means attached to the cleaning frame member 13A can be intactly used; and Mori et al. (US Patent No. 6,404,996 B1) teaches a cartridge detachably mountable on an image forming apparatus comprising a container for containing toner cleaned from a surface of an image bearing member for bearing toner. However, the combination of Matsuzaki and Mori, including other electronic text search, fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
